About This Class

Fluency with Information Technology
-- FIT for short -- is the state-of-the-art IT class for non-techies

• FIT is better than computer literacy
• FITness concept from NSF/NRC study
• FITness teaches how to use IT today and how to learn IT throughout life

UW was first in the US with a FIT class

Being Fluent

FIT100 teaches you to be Fluent with IT
What does that mean?
• You will use IT freely and easily
• Technology will not "be in the way"
• You will be able to recover from bugs, errors or unexpected situations
• You will be in control and confident ... now and in the future

Becoming Fluent is no small feat!

The Content

FIT100 helps you become Fluent by teaching …

• Skills, like email, word processing, …
• Concepts, like how networks work, building Web pages with HTML, …
• Capabilities, like how to find accurate information on the WWW, debugging, …
• Integrates content by using projects

Lifetime of Learning

Why is lifelong learning emphasized?
• Technology keeps changing
  • In school your parents didn’t learn …
  • The World Wide Web, etc.

  • Privacy, phishing, computer viruses, etc.
  • Voice-over-IP, Net-conferencing, etc.
  • Even CS majors didn’t learn that stuff

Some Stats

Looking at the numbers …
- 4.0-2.0 Students who passed with 2.0 or better came to all classes, prepared for quizzes, read book, came to all labs, took all exams
- 1.9-0.0 Students who did poorly skipped classes (and so missed quizzes), skipped labs, didn’t attempt parts of projects …
- The secret to success is good study habits

Taking FIT Is Worth It

Previous students said …
- "FIT100 was very valuable, even though it involved a lot of work (and I do mean LOT)"
