AQUEOUS

Record

Your Water Drinking Expert

Problem:

60% of human boy is made of water. 75% of Americans suffer chronic dehydration. People often forget to drink enough water.

Value Prop:

Aqueous helps you track liquid intake and reminds you to drink water non-intrusively.

Features:

Water Tracking
Data Visualization
Smart Reminders

Solution:

Design a mobile app that tracks user water and liquid intake, and reminds them to drink water.
