Problem

Small purchases **add up** and are **hard** to monitor.

We can help

We want to help you with your long term **goals** by keeping your short term goals **in check**.

We surveyed the field and asked, what do most people currently do?

We surveyed the field and asked, what do most people currently do?

We also talked with two **current** budget app users.

What we found

Large items are monitored.

Complicated input leads to less use.

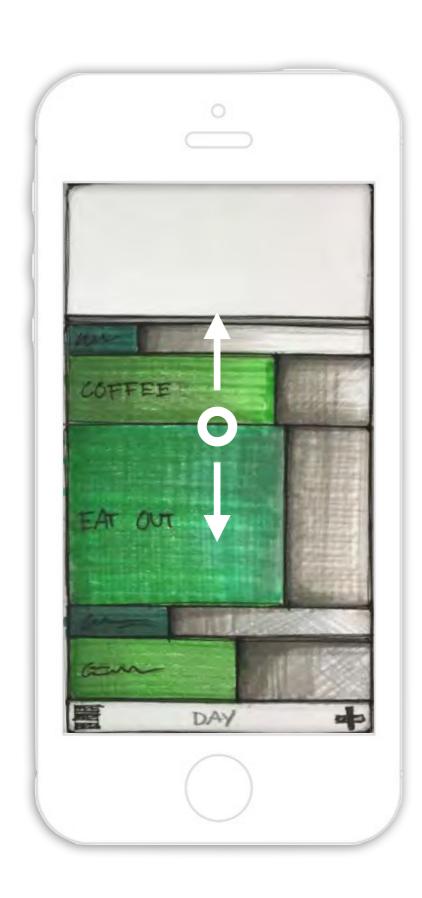

6 Tasks

Review spending progress compared to goals.

Account for **future** spending.

Adjust budget between different categories.

Designate spending as discretionary.

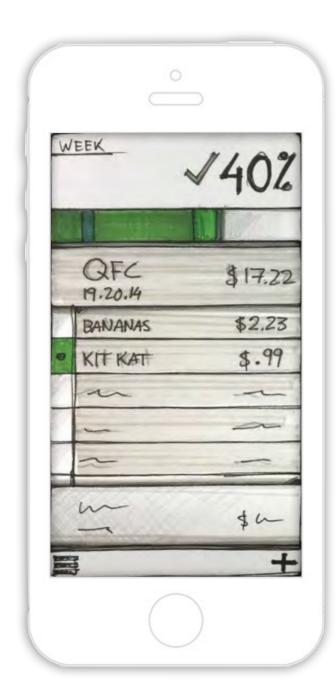

Prevent **unwanted** habitual spending.

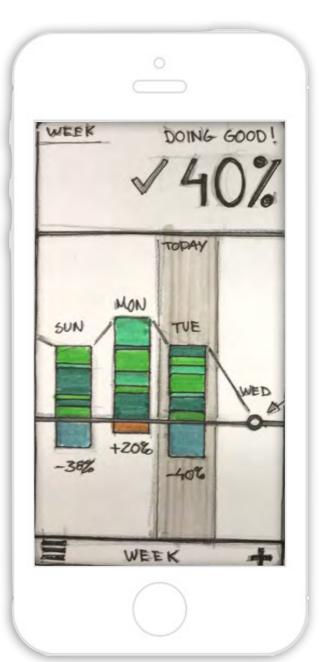

Check if a potential purchase fits the budget.

Summary

- -Iteration is key
- -Understand how users think
- -Better design ideas came from more out-of-the-box thinking
- -Discretionary spending is easy but discretionary spending tracking is hard
- -Users crave positive motivation
