Homework 0: Checklist and questionnaire

Professor: Steve Seitz

Li Zhang

TA:

Assigned: Wednesday, January 9, 2002 Due: Friday, January 11, 2002 (start of class)

Name:
Email:
Year (e.g, junior):
Major:
Registered for 490CV (Y/N)? (if no, would you like to add?)

- 1. Subscribe to the cse490cv mailing list by sending an email to majordomo@cs.washington.edu with "subscribe cse490cv" as the text of the body of the email. You should do this **as soon as possible**.
- 2. See if you have card-key access to the graphics lab (Sieg 228). If not, send me email (seitz@cs.washington.edu) to get this set up asap.
- 3. If you are not currently enrolled but would like to add the course, send me email so that we can set up class directories for you. If you are already enrolled, the directory will be automatically set up (no need to send email).
- 4. If you don't have a CSE account already, fill out one of the account forms (handed out in class, also available at the CSE office in Sieg).

5.	Are you experienced writing programs in C++? How about in C?
6.	Do you know linear algebra (matrix operations, eigenvalues, etc.)?
7.	Have you taken CSE 326 (datastructures) or equivalent (specify, if the latter)?
8.	Have you taken vector calculus?
9.	What got you interested in computer vision?
10.	Do you have prior experience in imaging (vision, image processing, graphics etc.)? Also please list any courses you've taken that are related (e.g., 457,).
11.	. What are you expecting from this class?
