

First Day Questionnaire

CSE503 – Spring 2006

NAME (optional):

1. What is your goal in taking CSE503?
2. If you took an undergraduate course in software engineering, please describe it in 1-2 sentences.
3. What is your likely area of research? If you have specific interests in the interaction of software engineering with another research area, please describe it in 1-2 sentences.
4. About how large (say, in lines of code) is the largest software system you've worked on?

In groups of 2-3, write a definition of “software engineering”
