# Announcements, Reminders

- Creative Project 2 out now, due next Tuesday 7/25 @ 11:59 PM
- Resub 3 is out, due next Thurs 11:59 PM
- Quiz 1 (Take-home): This upcoming Monday 7/24
  - Will be on: Methods (Param & Returns), Conditionals, While Loops, Scanner
- Final exam August 8/16 4:30 – 6:30 PM in PAA A102
  - If you have a conflict reach out-reach out ASAP – the expectation is you all can make that time.

# (Last Time) Scanner

An **object** that we can use to *read in input*  
In the `java.util` package

`Scanner` `console` = `new Scanner(System.in);`  
type name Scanner construction code

Methods	Description
<code>nextInt()</code>	Reads the next token from the user as an <code>int</code> and returns it
<code>nextDouble()</code>	Reads the next token from the user as a <code>double</code> and returns it
<code>next()</code>	Reads the next token from the user as a <code>String</code> and returns it
<code>nextLine()</code>	Reads an <i>entire line</i> from the user as a <code>String</code> and returns it

# Today:

So far, we have learned:

- Conditionals
- Scanners for user input
- While loops
- Methods, parameters, and returns
- Debugging..?

Today is an opportunity to bring these all together :3
