Announcements, Reminders

- Quiz Grading: Q0 Retakes, Q1 Retakes will come out **tonight**—Ed announcements as always!

- Course evaluations out; please fill out! 🥺

- Final lecture on Friday 🎉

Last Time

- **Arrays Reference Semantics**
  - Arrays can be *referenced*
  - Value Semantics vs. Reference Semantics
    - Before: `int a = 3;`
      `int b = a; // same as int b = 3; It's a _copy_!`
    - Now: `int[] a = {1};`
      `int[] b = a; // Not a copy, a _reference_!`

Plan for Today

- Array Patterns
  - evenLength()
  - clamp()
  - indexOfIgnoreCase()
  - rotateRight()
  - isPalindrome()
  - numCount()
