

Analyzing the LA Lakers' poor Performance this season

Such Kamal

Method

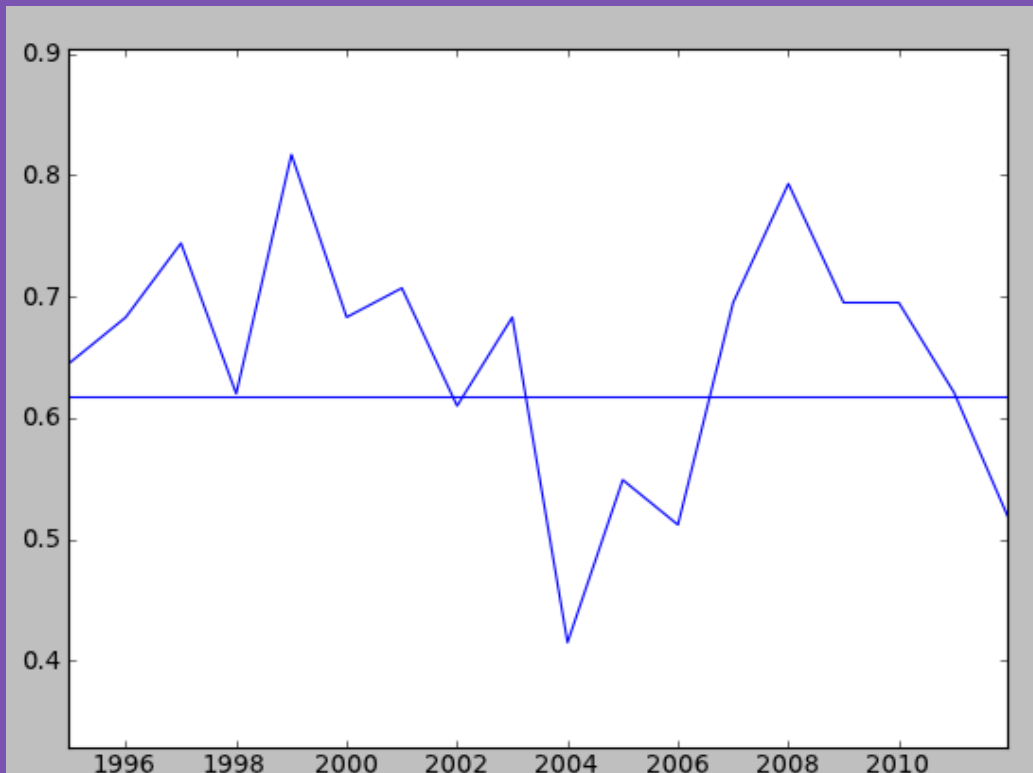

- ◆ Goal:

Find a method to properly analyze the Lakers' performance and see how their performance compares to their history.

Method

◆ Step 1:

Calculate their average performance in their entire history and use it as a reference.

Choose statistics within 20% of each other.

Validate average stats

Method

- ◆ Step 2:

Compare average statistics to this season and see if their performance has dropped below average.

- ◆ Step 3:

Compare average statistics from championship years to current season.

Conclusion

- ◆ Incomplete data for this season
- ◆ Many external factors should be taken into account.
- ◆ Waste of time? No.
 - In one week:
 - ◆ Calculated average statistics
 - ◆ Compare current performance to any other season's data
