- ANNOUNCEMENTS:
  - o QUIZ today at the end of class!
    - I'll review first, no worries. . .
  - o Major revisions to the course web
    - Added anonymous email form.
    - All the material thus far has been updated.
      - NEW: I'm starting to post source code as well of my examples, so you can play with them in MSVC++ if you'd like to. (some people learn best by doing, like me)
    - Thanks for your feedback!!
  - o New homework out today!
    - Collect previous homework
  - o Come see me at the end of class if you didn't get your midterm back.
  
- Talk about using private members in public member functions!
  - o I.e. answer Brandon's Question
  
- SLIDES, and almost a dozen of them! What we don't get through today we'll do on Monday.
  - o Inheritance
  - o Static Dispatch
  - o Dynamic Dispatch
  - o Abstract Classes
