

Steve Martin
CSE 143 Section AB
Section 5 Itinerary, Tuesday July 3, 2001

- Announcements:
 - o Quiz on Thursday
 - o No class tomorrow. . Happy 4th!
 - o I have office hours this afternoon, 2-4pm. . If you have any Q's, c'mon by!
 - o Quiz and Homework solutions have been posted.
- Quiz and Homework 1:
 - o Show grading criteria overhead
 - o GOOD:
 - Mostly correct answers. . the class mean is HIGH.
 - Good work! I gave out more extra credit here than in other sections!
 - o BAD
 - Scope operator
 - When is this used?
 - Review my slides on the web, the lecture slides, or your book for further examples.
 - CHECK END CASES
 - Points will be deducted on this in the future.
- Q & A on HW2
 - o Note that the design workshop we did last time applies to this assignment!
- Review Multiple Inclusion Hack
 - o Overhead
- Review Const
 - o Note that this is mostly a design decision!
 - PLAN YOUR CONSTs. . this is an amazing tool to help you find bugs, and keep you from making new ones.
 - o Overhead of examples
- Review Constructors
 - o Overhead of overloaded constructors
