

CSE143 Lecture Questions

Question	Answer
<p>Just to make sure, HW8 is primarily based on Monday and Wednesday's lecture, correct?</p> <p>Thanks. Sounds good!</p>	<p>Yes, particularly Wednesday's lecture.</p>
<p>So are protected methods basically universal helper methods? Or is that just one way to use them?</p>	<p>They are methods that you want to share with your subclasses, but they aren't available to other classes. So it's a way to create a hierarchy that has some common code without sharing that code outside this set of classes.</p>
