

# CSE 143X Section Handout #1 Solutions

1. no answer provided

2.

```
public class Mantra {
    public static void main(String[] args) {
        System.out.println("There's one thing every coder must understand:");
        System.out.println("The System.out.println command.");
        System.out.println();
        System.out.println("There's one thing every coder must understand:");
        System.out.println("The System.out.println command.");
    }
}
```

3.

Dear "DoubleSlash" magazine,

Your publication confuses me. Is it  
a \\ slash or a //// slash?

Sincerely,  
Susan "Suzy" Smith

4.

```
public class Difference {
    public static void main(String[] args) {
        System.out.println("What is the difference between");
        System.out.println("a ' and a \"? Or between a \" and a \\\"?");
        System.out.println();
        System.out.println("One is what we see when we're typing our program.");
        System.out.println("The other is what appears on the \"console.\"");
    }
}
```

5.

```
I am method 1.
I am method 1.
I am method 2.
I am method 3.
I am method 1.
I am method 1.
I am method 2.
I am method 1.
I am method 2.
I am method 3.
I am method 1.
```

## CSE 143X Section Handout #1 Solutions (continued)

6.

```
public class Mantra {
    public static void main(String[] args) {
        message();
        System.out.println();
        message();
    }

    public static void message() {
        System.out.println("There's one thing every coder must understand:");
        System.out.println("The System.out.println command.");
    }
}
```

7.

```
// Philip J. Fry, CSE 142, Autumn 3097, Section AX
// This program draws several repeated figures of stars
// using println statements.
// It uses static methods to improve structure and redundancy.

public class StarFigures {
    public static void main(String[] args) {
        figure1();
        System.out.println();
        figure2();
        System.out.println();
        figure3();
    }

    public static void figure1() {
        horizontalBar();
        printX();
    }

    public static void figure2() {
        figure1();
        horizontalBar();
    }

    public static void figure3() {
        System.out.println(" *");
        System.out.println(" *");
        System.out.println(" *");
        figure1();
    }

    public static void horizontalBar() {
        System.out.println("*****");
        System.out.println("*****");
    }

    public static void printX() {
        System.out.println(" * *");
        System.out.println(" *");
        System.out.println(" * *");
    }
}
```
