

## CSE 143X Section Handout #1 Solutions

1.

```
public class Mantra {  
    public static void main(String[] args) {  
        System.out.println("There's one thing every coder must understand:");  
        System.out.println("The System.out.println command.");  
        System.out.println();  
        System.out.println("There's one thing every coder must understand:");  
        System.out.println("The System.out.println command.");  
    }  
}
```

2.

Dear "DoubleSlash" magazine,

Your publication confuses me. Is it  
a \\ slash or a //// slash?

Sincerely,  
Susan "Suzy" Smith

3.

```
public class Difference {  
    public static void main(String[] args) {  
        System.out.println("What is the difference between");  
        System.out.println("a ' and a \'? Or between a \" and a \\"\"?");  
        System.out.println();  
        System.out.println("One is what we see when we're typing our program.");  
        System.out.println("The other is what appears on the \"console.\\"");  
    }  
}
```

4.

```
I am method 1.  
I am method 1.  
I am method 2.  
I am method 3.  
I am method 1.  
I am method 1.  
I am method 2.  
I am method 1.  
I am method 2.

6.

```

public class StarFigures {
    public static void main(String[] args) {
        figure1();
        System.out.println();
        figure2();
        System.out.println();
        figure3();
    }

    public static void figure1() {
        horizontalBar();
        printX();
    }

    public static void figure2() {
        figure1();
        horizontalBar();
    }

    public static void figure3() {
        System.out.println(" *");
        System.out.println(" *");
        System.out.println(" *");
        figure1();
    }

    public static void horizontalBar() {
        System.out.println("*****");
        System.out.println("*****");
    }

    public static void printX() {
        System.out.println(" * *");
        System.out.println(" *");
        System.out.println(" * *");
    }
}

```
