Lecture 24 - Contemporary issues of computing
Internet Overuse?

Structured Discussion

- What activities can one perform on the Internet?
- When and where do people use the Internet?
- How do these activities improve our lives?
- What activities do **you** spend most time on?
 - How much time to you spend on them?

Structured Discussion (continued)

- What is the longest that you went without going online?
- Are we overusing the Internet?
 - What are some signs of overuse?
 - What are some consequences of overuse?
- Are we relying too much on the Internet?
 - Are we overly dependent on it?

Structured Discussion (concluded)

- What can we do to get the benefits of the Internet without the negative implications?
