Flipping the conditioning

What about $\mathbb{P}(T|B)$?

Pause, what’s your intuition?

Is this probability

A. less than $\frac{1}{2}$
B. equal to $\frac{1}{2}$
C. greater than $\frac{1}{2}$

You have three red marbles and one blue marble in your left pocket, and one red marble and two blue marbles in your right pocket. If it’s heads, you’ll draw a marble (uniformly) from your left pocket, if it’s tails, you’ll draw a marble (uniformly) from your right pocket.
