CSE 331 – Section 10 – Design Patterns

For each question on this page, circle your chosen answer among the listed options.

1.	With the benefit of hindsight, which creational pattern would have been a good fit for your graph ADT, considering its subsequent client programs?					
	Factory Method	Abstrac	et Factory	Singleton	Builder	Prototype
2.	If a class's objects never change once initialized but must be initialized incrementally, which creational pattern would let you make the class's objects immutable?					
	Factory Method	Abstrac	et Factory	Singleton	Builder	Prototype
3.	In <i>Pathfinder</i> (HW7), would the singleton pattern make sense for the model, given that the program only serves one user per session?					
			Yes	No		
4.	In <i>Campus Paths</i> (HW9), would the singleton pattern make sense for the model, given that the program (SparkServer) may serve multiple users per session?					
			Yes	No		
5.	Scenario: You nee CSE 331, but the 6	-		•		-
	Aa	laptor	Composite	Decorator	Proxy	
6.	5. Scenario: Your web app, <i>Campus Paths</i> , is now very popular; to boost performs want the model to cache frequent path queries. Which structural pattern best fits					
	Aa	laptor	Composite	Decorator	Proxy
