

# CSE 344 Introduction to Data Management

Section 2: More SQL

# Importing Files

First, make the table.

Then, import the data.

```
.mode csv
```

```
.import ./population.csv Population
```

```
.import ./gdp.csv GDP
```

```
.import ./airport.csv Airport
```

# GROUP BY

- 1. Compute the **FROM** and **WHERE** clauses.
- 2. Group by the attributes in the **GROUPBY**
- 3. Compute the **SELECT** clause:
  - grouped attributes and aggregates.

# Don't forget!

LIMIT

COUNT(\*)

DISTINCT

AS

SUM

MAX/MIN
