Homework 0: Due December 7th
Critical Analysis of a Seminar

Your assignment is to attend any departmental seminar (usually given on Thursday's from 3:30 - 4:30) and write a short (1 page or so) critical analysis of the work presented. This assignment will only be graded pass/fail based on whether you turn it in -- not what you write. Given that this is an architecture course, please try and write this about an architecture seminar.

p.s. If you cannot attend any departmental seminar, please choose any other seminar / talk on campus.
