CSE 401/M501 – Compilers

Course Wrapup

Hal Perkins

Autumn 2021

Final Administrivia

- hw4 due last night; if you have late days you can still use them (2 max)

- CSE M 501 compiler due tomorrow 11pm
  - Report due Sunday night 11pm
  - No late submissions on either of these

- Please finish course evals while they are still available
- Please nominate great TAs for the Bandes award.
  - Both for CSE 401/M501 and for other courses

Final exam

- Tuesday 2:30-4:20 here

- Closed book like midterm, but ok to have two 5x8 hand-written note cards (can keep midterm card or replace it)
  - Extra blank cards available end of class today

- Topic list posted on website now

- Review Q&A Monday 4:30, CSE2 G01 (other big classroom across the hall)

- HW4 sample solutions will be available outside Perkins' office (CSE 548) late Sun. (will announce on discussion board when ready). Copies also available at Monday review session.

We're done!

- We managed to cover the essential core of CSE 401 / CSE M 501 in 10 weeks in spite of adjustments needed for resuming on-campus classes

- Take a look back and congratulate yourself on what you've accomplished – particularly during this difficult year

This doesn't happen without lots of help…

- Thanks to a fantastic staff – it can't work without them!!
  - Seonjun Mun, Mike Nao, Wilson Tang, Dao Yi, Apollo Zhu, plus Hanna Potter (CSE P 501)

And thanks to…

You!

It has been quite an adjustment to return to in-person classes. You should be proud of your resilience and what you've done. Please take care of yourself, watch your health, stay active, help yourself, your friends, your community.

Congratulations and best wishes

Come by and say hello in the future – I'd love to know what you've been up to after compilers!
