

CSE 401/M501 – Compilers

Course Wrapup

Hal Perkins

Spring 2023

Final Administrivia

- hw4 due last night; if you have late days you can still use them (2 max)
- CSE M 501 compiler due tomorrow 11pm
 - Report due Sunday night 11pm
 - No late submissions on either of these
- Please finish course evals while they are still available
- Please nominate great TAs for the Bades award.
 - Both for CSE 401/M501 and for other courses

Final exam

- Tuesday 2:30-4:20 here
- Closed book like midterm, but ok to have two 5x8 hand-written note cards (can keep midterm card or replace it)
 - Extra blank cards available end of class today
- Topic list posted on website now
- Review Q&A Monday 4:30, also here (regular classroom)
- HW4 sample solutions will be available outside instructor's office (CSE 548) late Sun. (will announce on discussion board when ready)
 - Copies also available at Monday's review session.

We're done!

- We managed to cover the essential core of compilers in 10 weeks and build one that worked!
- Take a look back and congratulate yourself on what you've accomplished – particularly as we are still not completely used to being back in person

This doesn't happen without lots of help...

- Thanks to a fantastic staff – it can't work without them!!
 - Robert Burris, Rachel Phuong, John Taggart, and Randy Zhang
- And they *all* are graduating 🎉 🎊 🥂 😱
 - So we're looking for more great TAs for next fall!!
 - Get in touch if you're interested!

And thanks to...

You!

We're more back-to-normal this year than last, but we're still feeling effects from the pandemic and all the disruptions that created. You should be proud of your resilience and what you've done. Please take care of yourself, watch your health, stay active, and help yourself, your friends, your community.

Congratulations and best wishes

Come by and say hello in the future – I'd love to know what you've been up to after compilers!

That's all Folks!
