

Full House

Full House

Shahaf Nuriel
Conor Reisman
Janette Siu

What is the project?

- * Create an intuitive, easy-to-manage web application for full houses
- * Allow roommates to communicate effectively with one another
- * Easily enable management of household tasks

Minimum Viable Product

- * Site you can log into
- * Create/delete a "House" with members
- * Services
 - * General House Announcements
 - * Chores
 - * History so you can see who did it last/when
 - * The option to mark who needs to do it (i.e., all need to pay cable bill)

Technology

- * Languages:
 - * PHP
 - * JavaScript/JQuery
 - * HTML
 - * CSS
 - * SQL
