

HomeSlate

Peter Weisbeck, Kyle Boone, Brian Oliphant

Project Vision

- A modern approach to the personalized homepage.
- Metro-inspired tile aesthetic.
- Fully customizable user experience.
- Widget/tile API.
- Social features and integration.
- Visual feedback from the UI.
- Syncing with other products.
- Alternate login/registration.
- Mobile compatibility.

UI Outline

Technology

- Client side: AJAX.
- Server-side scripting/framework: Django/Python.
- Hosting: Webfaction.
- Version Control: Git/GitHub.
- PostgreSQL, JSON for data retrieval/storage.

Minimum Viable Product

- A working login/registration system.
- An API.
- A simple widget for the user.
- A workable UI that presents the login and widget.
