

IdeaHQ

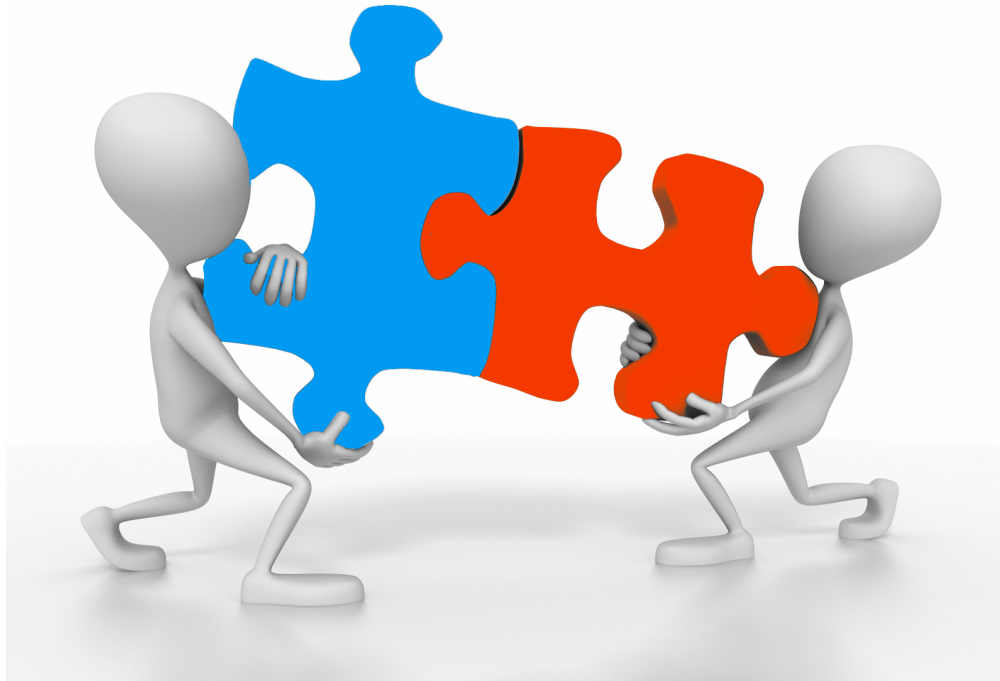

we make great ideas happen

Nat Mote, David Jung, Corneliu Moiceanu

Connect People

- Non-programmers have good software ideas
- Programmers can implement software
- Let's connect them!

What We'll Accomplish

- Allow anyone to submit ideas
- Enable software engineers to adopt ideas.
- Connect problem solvers with people who bring real problems to the table.

Proposed Software Stack

- Django project
- Git
- virtualenv for environment isolation
- Fabric for deployment and testing
- South for database management
- PostgreSQL for the database
