MUD

Multi User Drawing

Concept

- ***What is your product, on a high level?***
  - A turn based drawing web app
  - Allows users to contribute small additions each turn

- ***Whom is it for?***
  - Anyone with a Facebook account and Facebook friends
  - Business situations where collaborative visualization is useful

- ***What is the core functionality and feature set***
  - Allow a user to create a drawing and invite friends
  - Save and display a "timeline" of the image
  - Allow completed images to be rated and shared
  - Rank users based upon their previous images
  - Create a "picture of the day" that can be used as a starting canvas

Technical Details

- Multi User Web Application

- Facebook Login

- HTML5 canvas

- JQuery

- PHP 5.3

- MySQL

- ACL for managing user's permissions

- ORM for database connectivity

- Web service to handle up votes / adding image history to the server
