

# Pocket Pickup

Sergey Naumets (snaumets@cs) and Kane Swanson (kane@cs)

- **Problem:** Difficult to organize a pickup game, especially for some sports
- **What:** Simple pickup game organization app
- **Who:** Average person who enjoys playing sports

# Software Architecture

- **Frontend:** Simple forms, map feature, push notifications
  - Google Maps and Android APIs
- **Backend:** MySQL or similar database
- **Implementation:** Java and MySQL queries

# Challenges and Risks

- Simple and Attractive UI
  - Quick and intuitive forms
  - Simple map navigation interface
- Alternative Applications
  - There are similar iOS and web apps
  - No relevant Android apps
- Facebook Integration
  - A nice feature that may be out of scope
