

GeoPost

Megan Drasnin ([mdrasnin@cs/uw](mailto:mdrasnin@cs.uw.edu))
& Katie Madonna ([madonk@cs/uw](mailto:madonk@cs.uw.edu))

Problem & Solution

Want to explore your neighborhood, campus, or city?
On vacation and afraid of looking like a tourist?
Looking for a fun **outdoor** activity with friends? Explore with GeoPost!

 **POST!** GeoPost allows you to post secret location-based messages for other users; leave a tip about a great night club or your favorite study spot.

 **EXPLORE!** Look at the map and get ready to unlock messages! GeoPost uses the GPS in your android device and displays messages left by other users.

* Alternatives: Geocaching, Whisper

Nuts & Bolts

-  Android SDK
-  Google Maps
Android API
-  Facebook SDK
for Android
-  Amazon Web
Services
