

Mr. Manager

Managing a sports team made easy

Mattie Carlson
John Buscher

35 million kids participate in organized youth sports every year₁.

Coaches need a way to minimize administrative tasks, and maximize time spent coaching.

Mr. Manager is an Android app that helps keep coaches organized.

1. <http://www.statisticbrain.com/youth-sports-statistics/>

Software Architecture

Coaches can keep track of multiple teams, across a variety of sports.

Each sport has a layout optimized for keeping track of rosters, statistics, and playtime.

Mr. Manager can set up a team schedule and send mass texts and emails to the team.

Potential Risks

Risk: Creating an interface that can be used by a coach while on the field.

Solution: Create a simple, intuitive interface for coaches to use while in the game.

Risk: Security risks, app would contain sensitive data about team participants.

Solution: Create secure login for coaches, allow for team information to be deleted from the app.
