

Section Swap

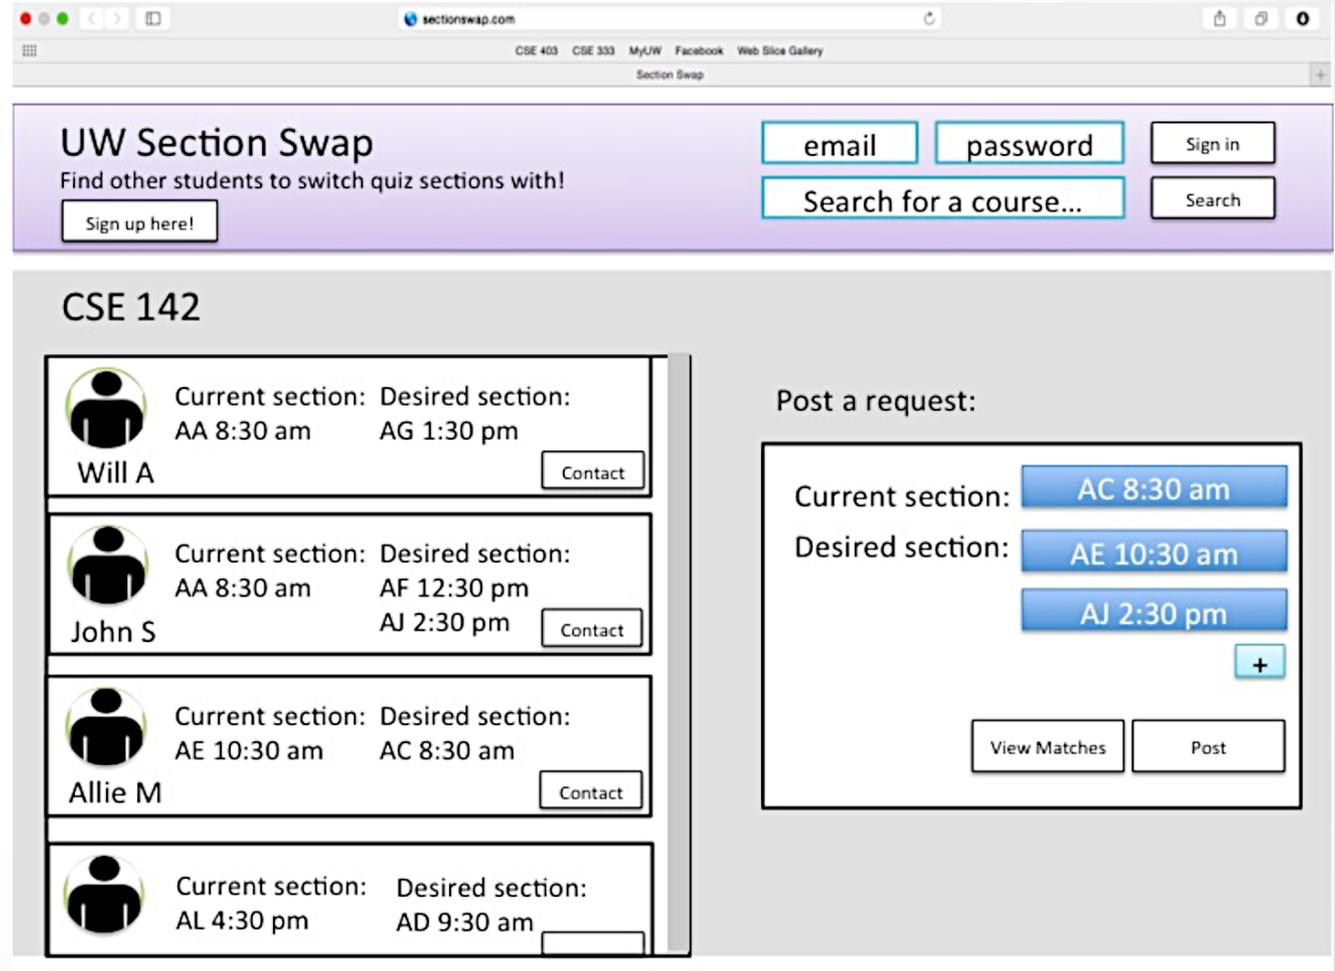

The Problem: Difficult to find others who are willing to swap quiz sections

Solution: A website that facilitates the exchange of quiz sections among UW students by organizing requests by courses.

Design

Features:

- Users post their current & desired quiz sections
- Posts are categorized by course
- Narrow search results by displaying only the matches

Architecture:

- Webpage backed by a database

Challenges:

- Inexperience with servers/databases and web development
- Many extra features that could be added but unsure about timeframe
