

Where's My Bus?

Rebecca Leslie (beleslie), Daniel Houtsma (dhoutsma)

Vision

- Riders can learn about issues causing extended bus delays
 - Communicate with other riders
 - Receive updates from transit services
- No alternatives with this functionality
 - Difficult to communicate directly with transit services
 - Currently no way to connect riders

Development and Risks

Software Architecture

- Front-end: Android app
- Back-end: Web API, OneBusAway API

Risks

- Lack of data
 - From transit services
 - From app users
- Inaccurate/irrelevant user data
