

IDESIGN

Kennan Mell (kmell96)

Ian Hadden (imhadden)

PROBLEM

Size comparison

To Code

SOLUTION

- Allow UX designers to implement the design on the device it will be used.
- Automatically convert the design to code that sets up the layout.

Alternatives

- Zeplin (and other current UX design tools)
- FluidUI (offers previews on mobile devices)

Problems

- Making a good UX for the app.
- Finding 3rd-party APIs for more complicated design needs.
