

# Matchmaker

Creators: Matthew Mans (mans1626),  
Lance Ogoshi (logoshi),  
Hope Crandall (hopesc),

# Application Design

- Create an easy way to play pick up sports
- Allow users to rate the people they play with
- Match people based on skill level
- Play casually or competitively
- No other similar apps (spontaneous meetup feature)
- Can be easily expanded to include other events
- Android App
- Google Maps
- Node.js, MySQL backend

# Challenges

- Feature creep
- Learning curve of development tools
- Delineation of features (e.g. are spontaneous meetups and standing meetups separate functions?)
- Choosing the best tools to integrate with Android
- Proper integration of client/server
