

GeoDare

Jessica Bahr - jbahr99

Omar AlSughayer - oasugher

Vision

Our vision for GeoDare:

- Real-life app
- User creates or attempts challenges in their current location
- Enjoy your own city away from usual touristy activities
- Used to explore a new city

Architecture

We are looking for team members who have experience in:

- Programming with Java
- Making Android apps
- Adding *login with Facebook profile* functionality to a pre-existing app
- Implementing Google Maps capabilities within an app
- Working with a database language, preferably MySQL
