

Cook-E

A cooking application built for speed and convenience

Tyler Jacoby (tsjacoby),
Xianzhe (David) Peng (pxz2012)

Why?

- Easier multi-tasking
 - People don't know what to do first when cooking multiple dishes
 - They prefer a step-by-step instruction
- Smaller cooking times
 - People are in a hurry
 - They just want to eat
- Simultaneous food completion time
 - No more waiting for one food to finish
 - No more cold food

How?

- Android application (Java)
 - retrieves and displays recipes
 - schedules cooking for speed (risk)
 - based on recipe and users speed
 - manages and displays timers
- server (SQL)
 - stores recipes
