
CSE 413

Programming Languages &
Implementation

Hal Perkins

Spring 2023

Course Wrapup

Final Administrivia

- hw8 “due” last night, but really due 11 pm Sat. because everyone has 2 late days now; no submissions after that
- Final exam 8:30(!) am Monday here
 - Topic list and old exams on the web now
 - Review session Sunday 2pm OUG 141 (same as midterm)
- Please finish course evals while they are still available
- Please nominate great TAs for the Banded award.
 - Both for CSE 413 and for other courses

We're done!

- We've covered core principles of languages and implementation concepts in 10 weeks
- Take a look back and congratulate yourself on what you've accomplished – particularly during this (still) difficult year

This doesn't happen without lots of help...

- Thanks to a fantastic staff – it can't work without them!!
 - Aditya Akhileshwaran
 - Aaminah Alam
 - Allan JI
 - Yigao Li
 - Vani Panuganti
 - Yilin Zhang

And thanks to...

You!

It's been a long year. We're not really completely recovered from the pandemic years and still adjusting to in-person classes. You should be proud of your resilience and what you've done. Please take care of yourself, watch your health, stay active, help yourself, your friends, your community.

Last words...

Congratulations and best wishes

Come by and say hello in the future – I'd love to know what you've been up to after CSE 413!

That's all Folks!
