PickUp

It's more than a game, it's a community

## PickUp makes it easy to find, schedule, and organize casual sporting activities.

Overview

There are many hurdles to find and play pickup sports games.

PickUp makes it easier to find people nearby with shared sporting interests, similar skill level, and compatible schedules.

PickUp Lets You...

- Find nearby Games with search functionality and several filtering options
- Create Games for any sport
- Create Teams and manage them
- Schedule Games based on when all the invited players are available

Design Iteration

PickUp's map interface evolved significantly from initial sketch to interactive prototype.
