

# Section 4: Task Analysis Check-In

October 23rd, 2015

# Task Analysis Check-In & Critique

TA's will split between two of the groups, third group will also divide between the two groups

Present your Task Analysis - Take notes on critique!

# Things to Keep in Mind

- How do presented tasks relate to the themes from CI?
- Is this a task or a feature or scenario?
  - Tasks say what is accomplished, not how to accomplish it. Should convey a problem and what is accomplished
  - Good tasks will speak to underlying problem and leave you with enough room to explore design options

# What's Next?

Design Sketches!

3 DISTINCT design sketches that each support four of your tasks.

Due Tuesday @ 4am!
