

## Memorable Consent Form

You have been invited to participate in a usability study on the user interface of a web application. This usability study is being conducted by Cindy Fan, Reggie Jones, Tiffany Lin, and Saloni Parikh, undergraduates in the Computer Science and Engineering (CSE) department at the University of Washington. The study is part of a Human-Computer Interaction Capstone Project in the CSE department. The objective of this usability study is to attempt to understand the user's first reaction to the interface and their initial experience in terms of effectiveness, efficiency, and satisfaction.

I hereby give my permission to be recorded as part of my participation in the Memorable Usability Test conducted on \_\_\_\_\_ (Date)

I understand and consent to the use and release of the video recording to the memorable team. I further understand that the video recording and any highlights extracted from it may be used for review by the team. Representative video excerpts may also be used within presentations to the class, at professional meetings, and as part of research.

I understand that if for any reason I do not want to continue I can leave at any time during this session. I can also deny consent at any time.
