

**CSE 484 In-Class Worksheet #11 – Spring 2019**

Name: \_\_\_\_\_ UWNetID: \_\_\_\_\_ Date: \_\_\_\_\_

Email address: \_\_\_\_\_

Partner names for this activity: \_\_\_\_\_

Will you want to pick up your worksheet later? Circle one: Yes / No

**Q1:** Why or how might a user visit a bad website like `attacker.com`?

**Q2:** Consider a website `site.com` that includes a third-party script, e.g.:

```
<script src="http://otherdomain.com/library.js"></script>
```

From what origin can this script read cookies?

If this script sets a cookie, under what origin will that cookie be set?

Do you see any security concerns with this?
