CSE490f Final Presentation

Presenters grades

Note: if you are on a 3 person team, the 3rd person will take all 10 minutes. For two person teams, please split the 10 minutes roughly in half.

- Organization
  - Give an overview of what you are going to discuss
  - Discuss the overall problem
  - Present your high level solution
  - Describe representative tasks and why you chose them
  - Design evolution and why changes were made (w/ images)
  - Current UI description (w/ images)
    - what does it do
    - how does it work
    - what is missing
  - Demo of system (may be spread throughout if necessary)
  - Key problems found by HE (severity 3 & 4 problems)
  - Summary

- Presentation
  - Use slides. Ensure that the presentation shows appropriate preparation, and that visual aids are effective.
  - Cover the required scope within the 10 minute time period. Practice and time your presentation.
  - Ensure the presenter makes eye contact, projects well, and is dressed appropriately.

Group grade

- Representative Tasks
  - Did they provide coverage of the functionality?
  - Where the tasks too easy or too hard?

- User Interface
  - Was the interface novel and creative?
  - Was it appropriate for the supported tasks?
  - Does it follow from the task analysis and low-fi prototype test

- Presentation of Functionality
  - Was enough presented to illustrate the representative tasks?
  - Was enough presented to give a flavor of the interface?
  - Was there an appropriate amount given the difficulty of interface ideas?
