4/30	Stefan, Mallika, Jessica W.
5/7	Nicole, Vivek, JJ
5/14	Zorah, Brian, Rob
5/21	Rama, Andrew, Eun-Sol
5/28	Jessica H., Laura
6/4	Max, Victoria

This proposal is primarily focused on maintaining existing programs and does not include new directions for CSTA. The 5 objectives listed in the proposal describe activities CSTA is already engaged in. The biggest change will be an increased emphasis on evaluation which will help CSTA with its advocacy by increasing its credibility. The evaluation plan seems well thought out.

CSTA has already demonstrated success in working towards its objectives. Continuing CSTA activities is of value to the K-12 computer science education community. The proposed improvements to teacher resources and communications channels would answer existing teacher complaints.

The majority of the budget in this proposal is devoted to continuing salaries for the executive director, the program manager, an editor and the evaluator.
