

Team members:

Jeff Davis

Jack Menzel

Genevieve Orchard

Altin Dastmalchi

Division of work (this may change as we do more research):

Altin:

What gaps remain between law and policy, and ability to prosecute?

What categories of activity should be illegal?

How should existing law be changed?

Jack:

How does current and proposed law relate to current and future attacks?

How will evolution in law change kinds, extent, and frequency of cyber attacks?

Genevieve:

What is the history of prosecution of cybersecurity attacks?

What is the state of the art in Cyberforensics, evidence, and attestation?

Jeff:

What are the issues and challenges with attacks across political borders (state, national, international)?
