

# Final Project Proposal

Due: February 10, 2011

In lieu of a final exam, each student will be expected to do a final project. The project should consist of an in-depth exploration of some topic covered in or related to the class. Projects will consist of a written report of roughly 5 pages due at the beginning of finals week (March 14) and an oral presentation of roughly 5 minutes to be given during finals week.

Students should submit proposals by February 10. Feedback will be provided and an agreement on the scope of each project should be concluded by February 17 at the latest.

Proposals need only be a paragraph or two and outline the scope of the proposed project. A partial set of final projects from 2006 can be found at <http://www.cs.washington.edu/education/courses/csep590/06wi/finalprojects/> and may provide some inspiration.
